Student Union Ballroom (SU, E4)
10:00 a.m. and 12:30 p.m.
The Honors Program enriches the undergraduate experience through specialized coursework, research and creative opportunities, and engagement beyond the classroom. Through the Honors Experience, students explore, create, and lead in academic and co-curricular areas. Honors students, faculty, and staff create a vibrant community of scholars designed for academic, social, and cultural development within the broader UConn community.

STUDENT RECREATION CENTER (SRC) TOURS
The SRC is home to the latest fitness equipment, six basketball/volleyball courts, an indoor running track, and more. Students can participate in a number of group fitness classes focused on mind, body, and functional training. The SRC also houses a cycle studio, our climbing wall with over 5,000 square feet of climbing area, and an aquatics center.

Tours are available from the North Quad entrance every 15 minutes starting at 10:00 a.m. The last tour departs at 1:45 p.m.

UCONN INNOVATION ZONE TOURS
Peter J. Werth Residence Tower, Room 014 (WRT, E3)
11:30 a.m. – 2:30 p.m.
Located on the lower level of the Peter J. Werth Residence Tower, the UConn Innovation Zone provides students, faculty, and staff with the tools, equipment, and guidance to create and innovate when inspiration strikes. Stop by to tour the makerspace and connect with Huskies as they share their experience as “makers” on campus.

About the Innovation Zone
At nearly 1,500 square feet, the Innovation Zone is the first official makerspace at UConn. Upon completion of the appropriate safety training, community members gain access to prototyping equipment including 3D printers, vinyl cutters, table and band saws, laser cutters, hand tools, as well as our textile and electronics stations. The Innovation Zone aims to inspire creative thinking while providing a hands-on learning environment that encourages innovative design, prototyping, collaboration, problem solving, and entrepreneurship.

Become a Husky

First-year applicants must apply online through either the Common Application or apply Coalition on Scoir. The UConn Application is recommended for transfer applicants.

Applications are reviewed through a holistic approach for both first-year and transfer applicants. Consideration is given to the entire application, including grade point average, class rank, SAT or ACT score (if provided; UConn is a test-optional institution through fall 2026), required essay, extracurricular activities, and optional letters of recommendation. This allows us to gain a full understanding and measurement of an applicant’s potential to be a successful UConn Husky.
